

En ciberseguridad, la formación de usuarios importa

Emilio Gil

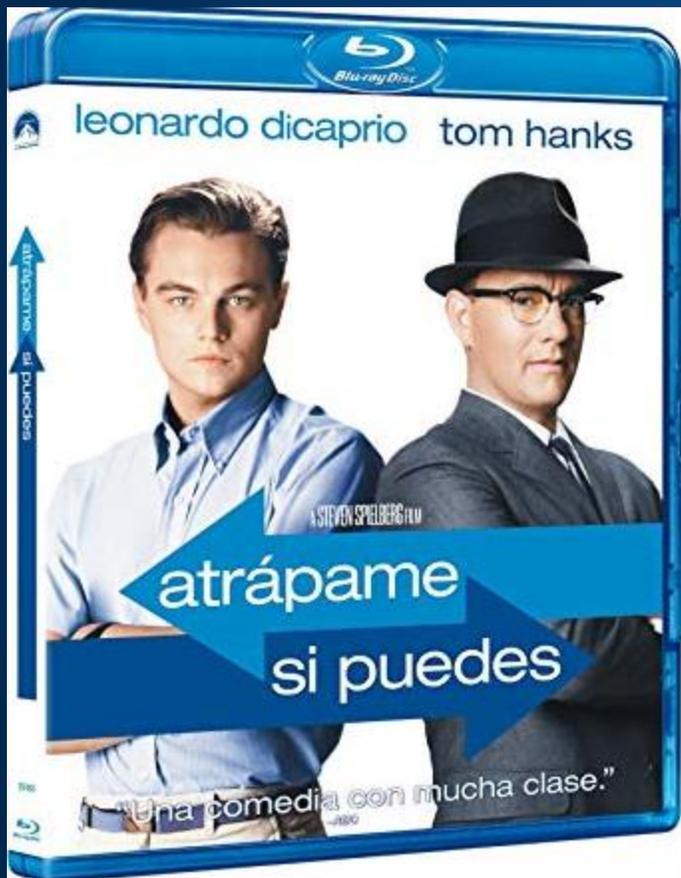

Territory Account Manager - Sophos Iberia

““ No hay una sola tecnología que
no pueda ser superada por la
Ingeniería Social ””

Frank Abagnale, security consultant

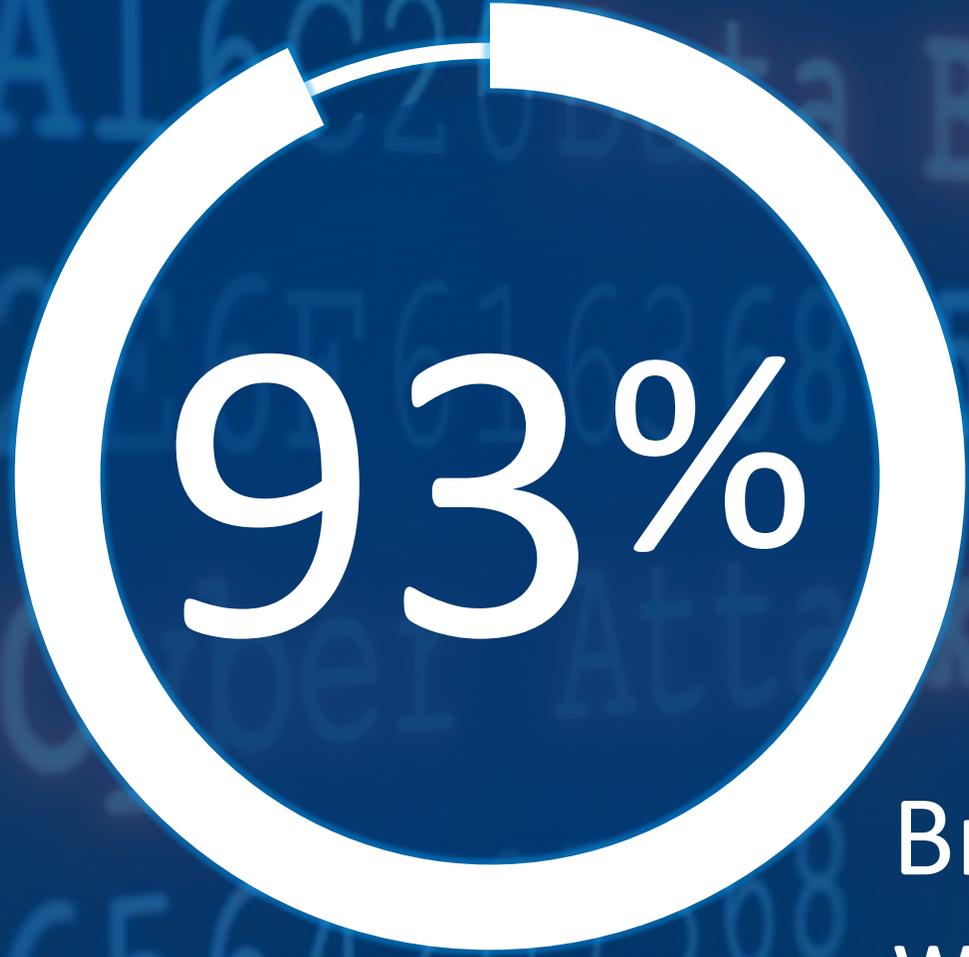

¿Recordáis...?

El personal de las Administraciones públicas recibirá la **formación** específica **necesaria** para garantizar la seguridad de las tecnologías de la información aplicables a los sistemas y servicios de la Administración.

Esquema Nacional de Seguridad

Concienciar a los empleados, factor clave para el cumplimiento de **GDPR**

Breaches starts with phishing

El phishing es una gran amenaza, que provoca grandes perdidas

INFORMES COMPLETOS

Presentamos Sophos Phish Threat

Imita campañas de phishing fácilmente en 3 pasos

1

Elegir ataque

- 140 de plantillas de ataque personalizables

2

Elegir formación

- Más de 60 cursos interactivos de formación

3

Monitorizar la actividad y medidas de concienciación

- Reporte de las campañas
- Niveles de seguridad por organización, grupos, o individualmente

Ventajas de consolidar su protección en Central

1. Gestión simplificada:

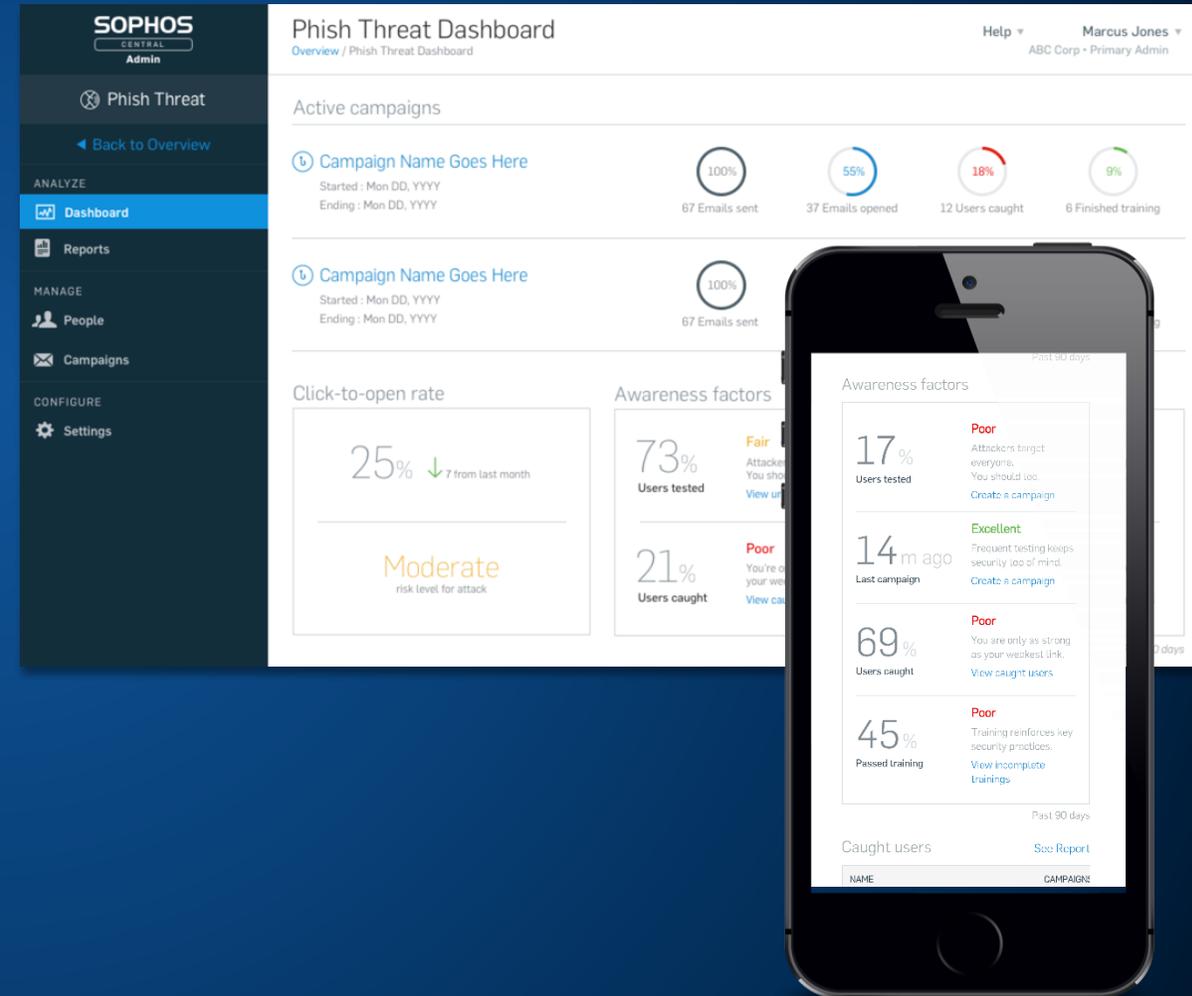

- Una sola licencia, simulaciones ilimitadas por usuario
- Data center situados en Norte América, Irlanda y Frankfurt

2. Reduce la complejidad:

- Todo está en un consola intuitiva
- Uso sencillo, sin complicaciones

3. La forma más sencilla de ampliar la protección:

- Crea una estrategia de phishing multicapa incluyendo simulaciones de phishing y formación + Seguridad Email & Endpoint

Sophos Email Security

The Latest Threat Intelligence

- Global **SophosLabs** Network
- Operating **24/7** in 8 locations
- ~100 spam traps in 22 Countries

Sophos Email Benefits

Predictive Email Security

- Sandboxing powered by Deep Learning
- Time-of-Click URL protection

One Account. All of Sophos

- Secure any business email
- Sophos Central Console

Latest Threat Intelligence

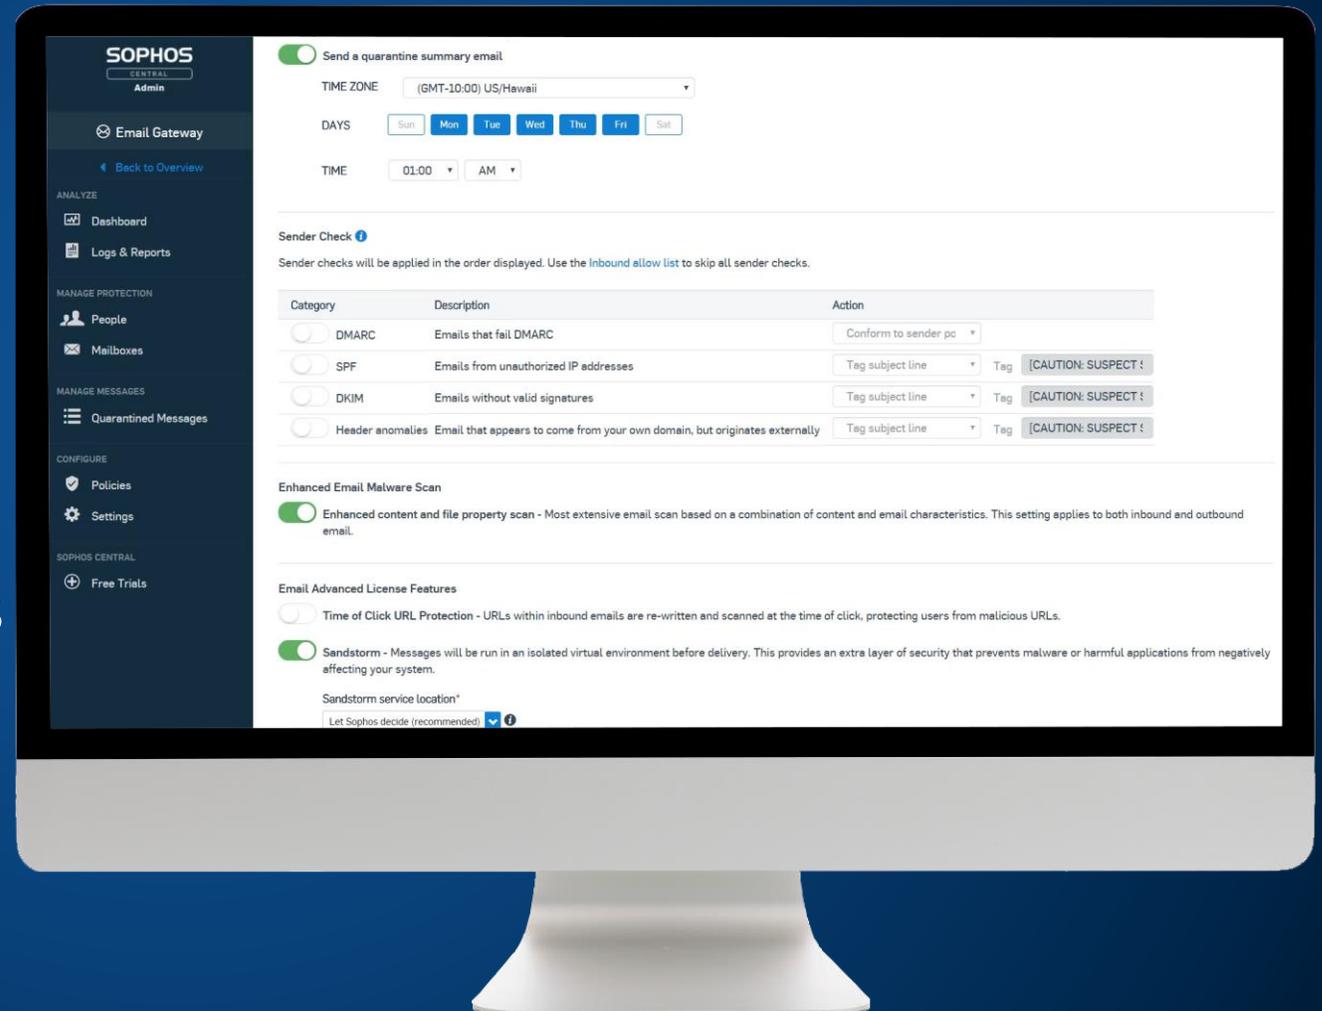

- Global SophosLabs Network
- Protecting 10 million mailboxes

Protection from Phishing Fraud

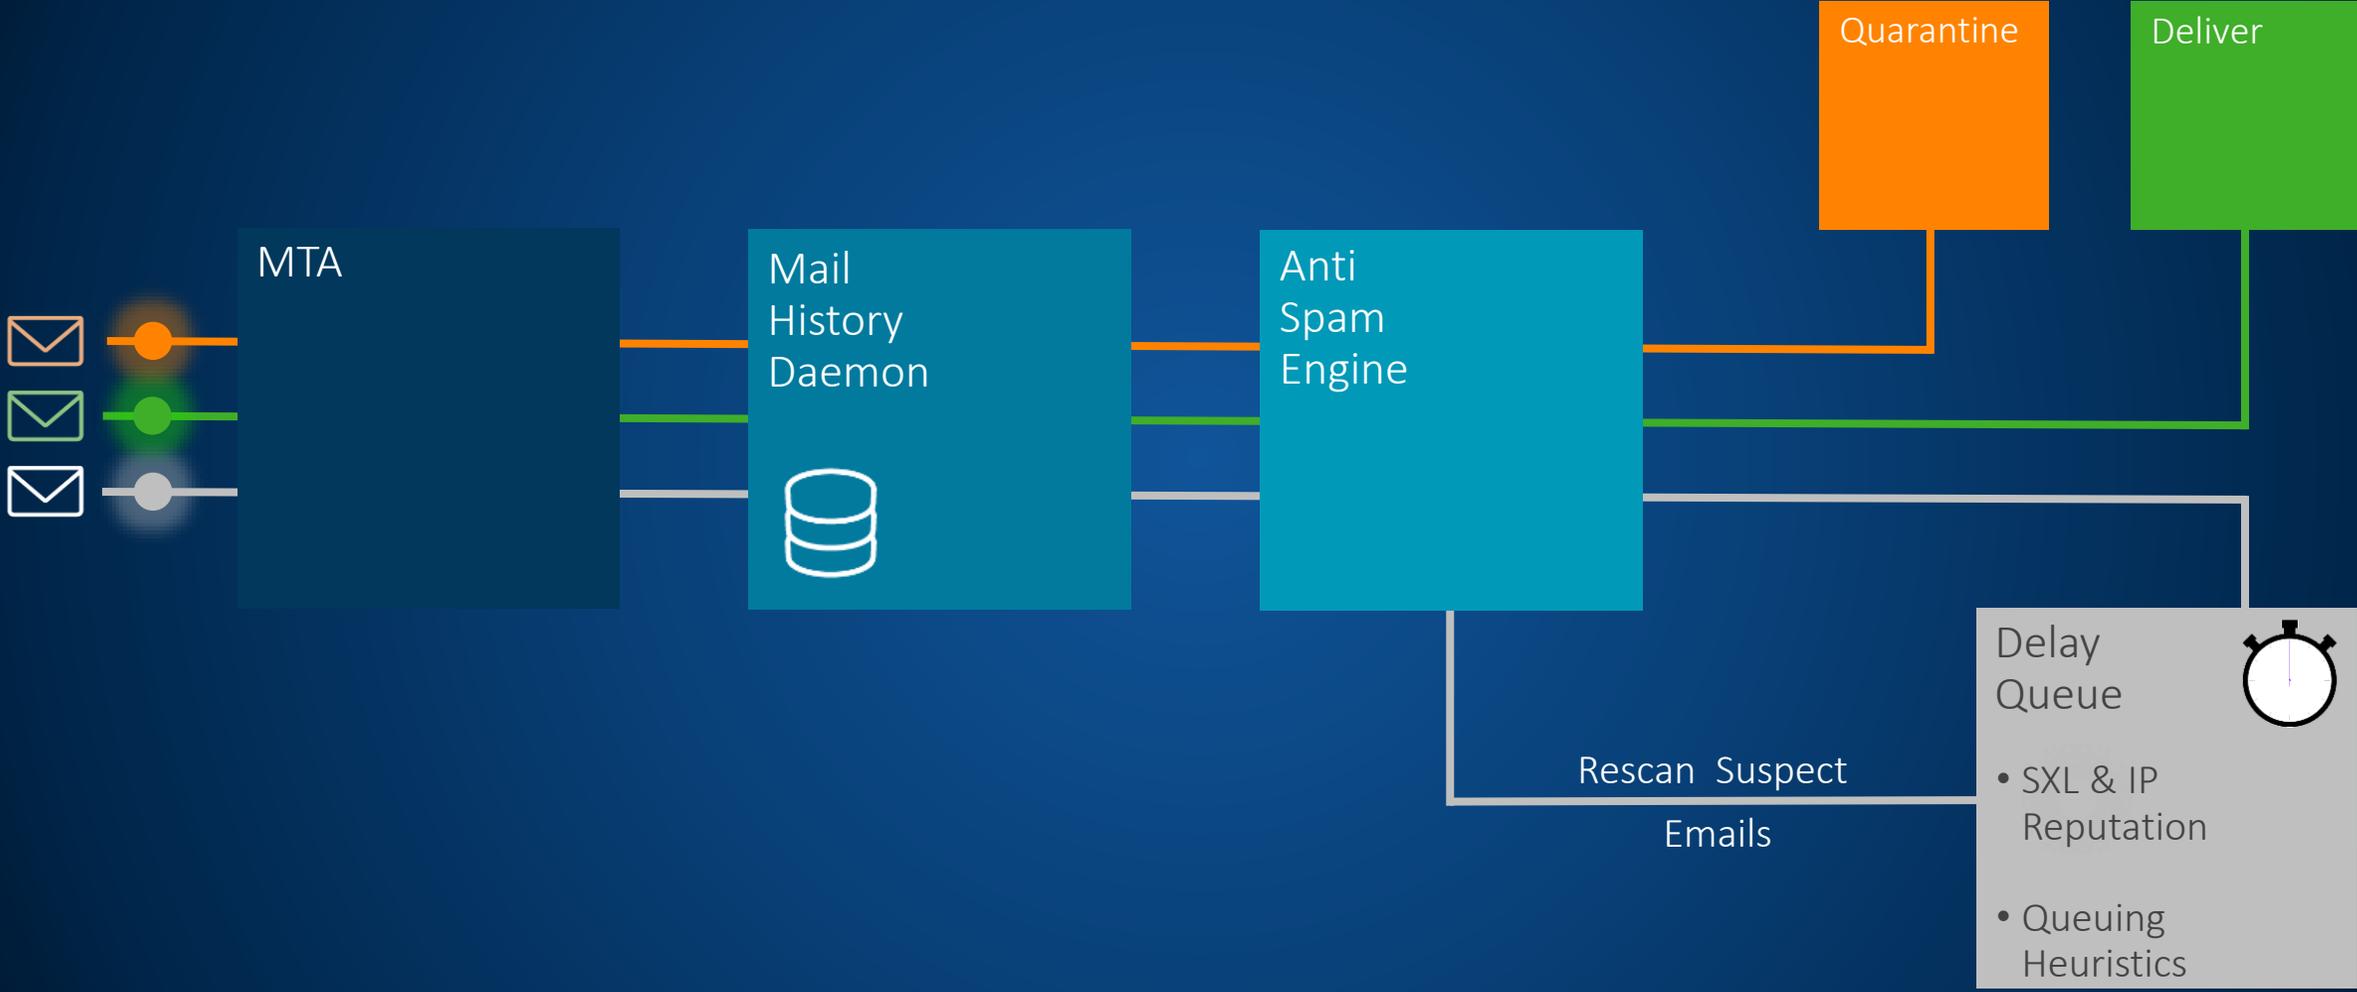

- SPF, DKIM and DMARC
- Header anomaly detection

Security Features

- Reputation Filtering
- Sender authentication checks (SPF, DKIM and DMARC)
- Header anomaly detection
- Anti-Spam & Anti-Virus Engines
- Sophos Sandstorm
- Sophos Delay Queue

Sophos Delay Queue

More Sophos Email Advantages

Email continuity – Emergency Inbox

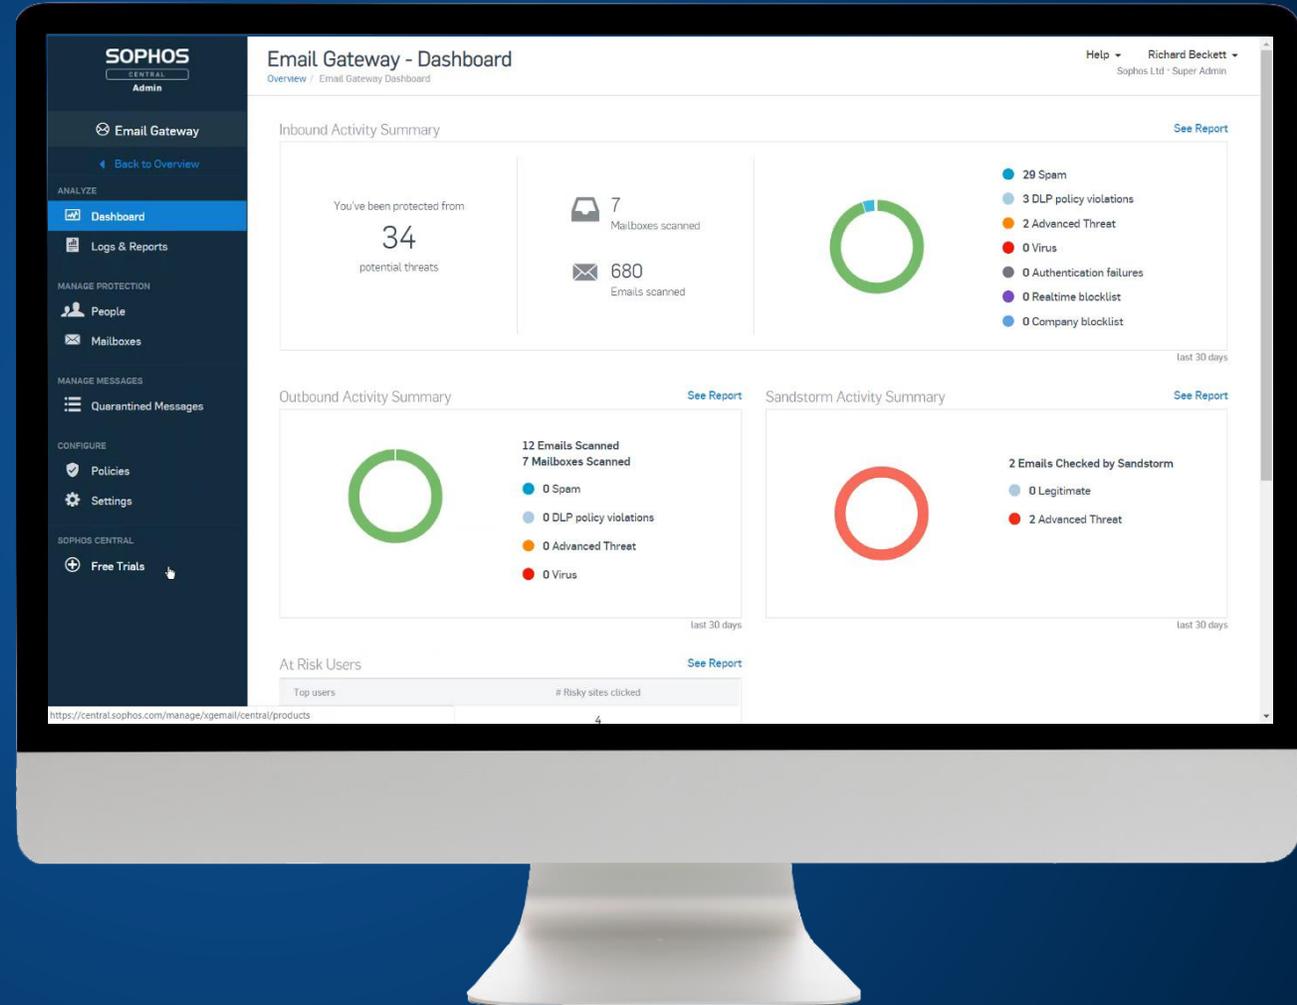

<https://downdetector.es/problemas/office-365>

Information Protection

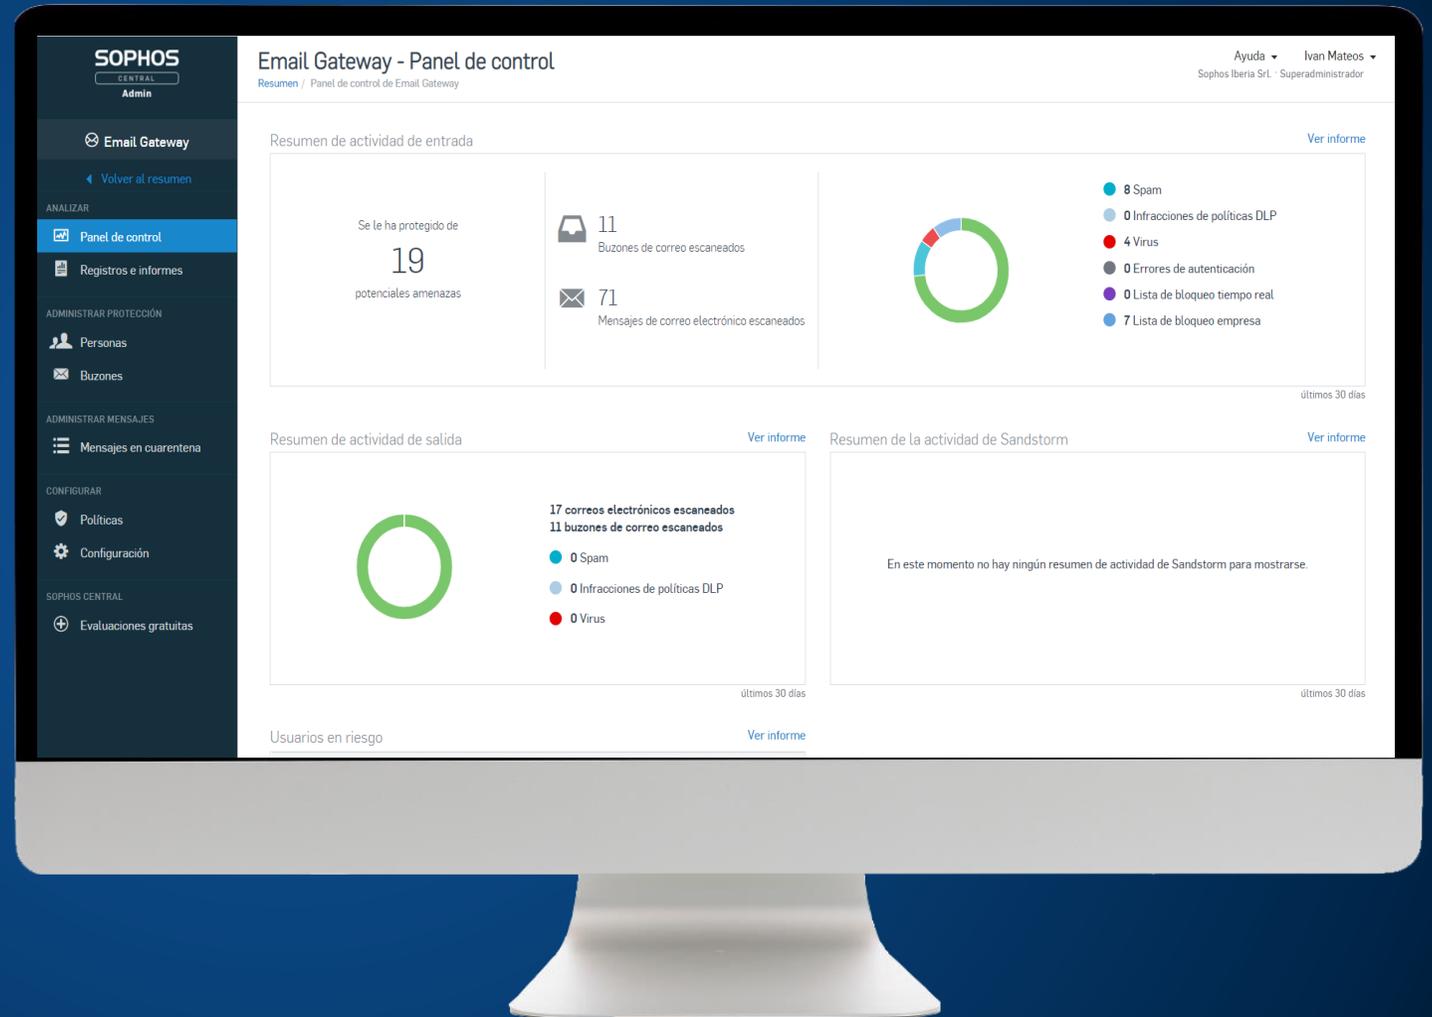

Content Control

- **Prevent data loss**
Filter messages for keywords and file types
- **Stop hidden malware**
Identify forged file extensions masquerading as safe documents
- **Block phishing requests**
Block or quarantine sent emails containing sensitive information

Email Encryption – BETA

- **Encryption in few steps**
Entire email or attachments only
- **Flexible Policy**
Allow to encrypt all messages sent to a list of recipients
- **Secure messages fast**
Use O365 add-in or custom subject line . I.e. “Secure: ***”
- **Reply Securely Sophos**
Secure Message Portal

Sophos Endpoint and Synchronized Security Appliance

Sophos Endpoint and Synchronized Security Appliance

1

Malware Detection

Sophos Endpoint detects a malware attack

2

Communication

Sophos Endpoint shares infection status with the cybersecurity system

3

Device Isolation

Synchronized Security appliance instantly isolates the computer, preventing the attack from spreading, and communication with C2 servers.

Security Heartbeat™

Existing Switch

Existing Firewall

XG Firewall

5

Access Restored

Synchronized Security appliance restores network access. Root Cause Analysis provides detailed view of what happened

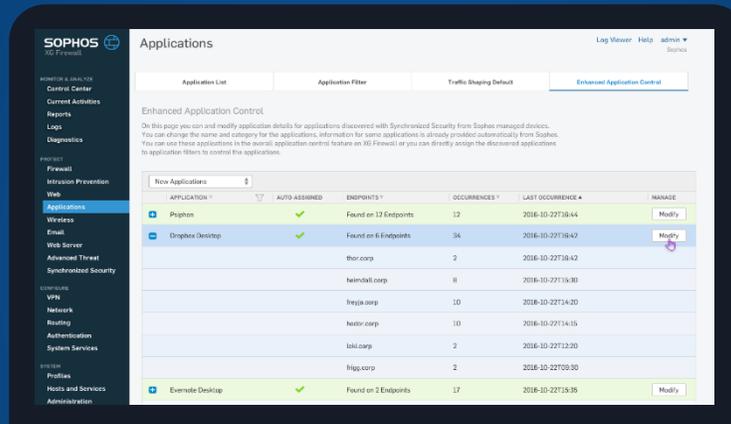

Discover Mode:

- Security Heartbeat Health
- ATP Detection
- RCA for ATP Detections
- Lateral movement prevention (on the same LAN segment)

Synchronized App Control

33%

of customers have discovered up to 100 new applications

The screenshot shows the 'Applications' page in the Sophos Firewall management console. It features a table of discovered applications with columns for Application Name, Auto Assigned status, Endpoints, Occurrences, and Last Occurrence. A sidebar on the left contains navigation options like 'Current Activators', 'Reports', and 'Diagnostics'. The main content area includes a 'New Applications' dropdown and a table with the following data:

APPLICATION	AUTO ASSIGNED	ENDPOINTS	OCCURRENCES	LAST OCCURRENCE	NAMES
Phishon	✓	Found on 12 Endpoints	12	2016-10-22T16:44	Modify
Dropbox Desktop	✓	Found on 6 Endpoints	34	2016-10-22T18:42	Modify
		fbm.corp	2	2016-10-22T18:42

¿La sincronización sólo aplica al Firewall?

Integración Endpoint y Wireless

¿La sincronización sólo aplica al Firewall y la WiFi?

Integración eMail y EndPoint

1

Compromised Mailbox Detected

Sophos Email detects a compromised mailbox sending outbound spam or phishing emails

2

Mailbox Isolation

Sophos Email isolates the mailbox, alerts the Central Administrator and shares information with Endpoint. Preventing the attack from spreading and removing sender privileges

3

Endpoint: Device Scan

Sophos Endpoint identifies and scans all known devices associated to the mailbox

Security Heartbeat™

5

Mailbox Restored

Mailbox sender privileges restored

4

Endpoint: Clean-up

Sophos Endpoint automatically cleans up any infection with admin alerts surfaced in Endpoint

¿La sincronización sólo aplica al Firewall, la WiFi y el Correo?

Integración EndPoint y PhishThreat

¿La sincronización sólo aplica al Firewall, la WiFi, el Correo y el PhishThreat?

Integración eMail y PhishThreat

1

Malicious Email Link Clicked

A Sophos Email user clicks an email link classed as a risk to the organization

2

Identify at Risk Users

Instantly view high-risk users in the Sophos Email "At Risk Users" report

3

One-Click Enrolment in Training

Enrol high risk Sophos Email users directly into Phish Threat phishing simulations and security awareness training in one-click.

The screenshot shows the Sophos website homepage. At the top, there is a navigation bar with the Sophos logo and menu items: PRODUCTS, SOLUTIONS, PARTNERS, SUPPORT, COMPANY, and a search icon. A 'SIGN IN' button is also present. Below the navigation bar, there are two main promotional sections. The first is for 'Next-Gen Endpoint Protection' featuring 'INTERCEPT' with a large orange 'X' graphic and the text 'Unmatched endpoint protection.' The second is for 'Next-Gen Network Protection' featuring 'XG FIREWALL' with an orange 'XG' graphic and the text 'The world's best visibility, protection, and response.' Both sections include 'Learn More' and 'Try Now' buttons. Below these are several product tiles in a grid. The tiles include: Intercept X (Unmatched endpoint protection), XG Firewall (Next-gen network protection), Sophos Mobile (Secure unified endpoint management), Sophos Home (Business-grade cybersecurity for home users), Intercept X for Server (Cloud and on-premises server protection), Sophos Wireless (Smart, secure cloud-managed Wi-Fi), Phish Threat (Phishing email simulations and cybersecurity training), SafeGuard Encryption (Full-disk and file encryption), Sophos Email (Protection from spam), UTM (Driven unified threat), and Secure Web Gateway (Web security control and...).
